

NTSL Webinar

Our Online live seminars are scheduled events simulcast over the web. This now means you don't have to miss our seminar!

What You Need

You'll need a computer with a browser, Adobe Flash player (version 8 or later) and Internet connection. Sound (via Voice-Over IP) will broadcast over your computer if you have audio and microphone (optional) facilities on your computer system.

The webinar access details will be provided, via the email address you provided, once you register for the seminar.

The URL for NTSL Web Seminar

This will be provided with your login ID, via email.

Forgot Password or Login Name?

No Problem. If you do not remember your login and password, the seminar administrator will reset these for you.

Your Computer System Housekeeping

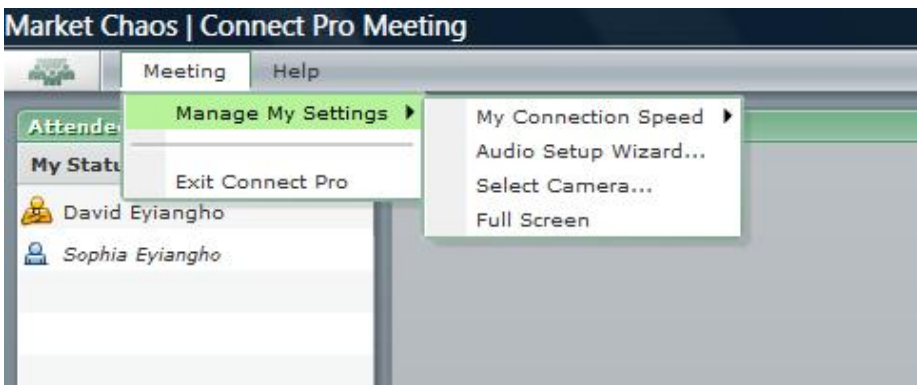

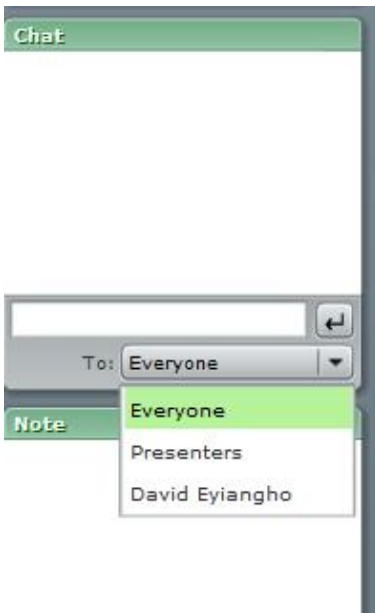

To improve your webinar experience, please carry out the following tasks on your computer before joining the webinar:

1. Defrag your system
2. Disk Cleanup
3. Close down unwanted applications that may drain your system resources

Others

The **Chat pod** allows attendees to send and receive chat messages to each other.
